DTLINEN - Project Records on Durable Items Purchased from
Subsidy Funds

References: A. EQQN-27695
B. EQBA-23091, dated 2 June 1955

1. DTLINEN's initial set of records pertaining to Subject items were forwarded under Reference B. Upon receipt of Reference A, we requested DTLINEN to review these records and to indicate any changes, either in terms of items disposed or newly acquired. Forwarded as separate cover Attachments A and B are the new inventories of the overt headquarters and the covert section, respectively. They contain the most current listing of the items in question. Incidentally, Attachment B is the first list of its kind from the covert section, since our initial request in 1955 pertained only to the overt installations.

2. Our records of motor vehicles acquired by DTLINEN from subsidy funds have been in the form of declarations of trust. Forwarded as separate cover Attachment C are copies of six (6) declarations containing pertinent data re the respective vehicles. It should be noted that the two declarations for the two Opel 3.5 ton trucks represent actual KUBARK property which is on loan only to DTLINEN. These two trucks were obtained from Mission supply in late 1953 at the time DTLINEN was called upon to carry the burden of extensive balloon operations against Soviet Army troop maneuvers in the GDR. The trucks can and will be returned to KUBARK any time we so specify.
